# Product Safety Recall

## WHY IS THE PRODUCT DANGEROUS?

These items present an ingestion hazard due to:

- a removable component (metal ring) that fits into the test cylinder specified in standard EN 71-1 for children under 36 months
- a small component (keychain) that detaches when subjected to a pulling force of 33 N
- a seam at the bottom that may open, making the fibrous filling accessible

## WHAT SHOULD YOU DO?

Consumers are asked to stop using these items and return the purchased products to the point of sale for a refund.

## REMEDIES AVAILABLE TO CONSUMERS

Return the purchased products to the point of sale for a refund.

## CONTACT

Our customer service team (email address product.communication@i-total.it) is available to provide further information or clarification.
